

Merchant Services

Merchant Services is a way your business can accept payments through a point-of-sale system in your physical store, online, or on-the-go. Tailored to fit your specific needs for your business with the best in payments technology.

*Seamlessly process credit card payments using iOS or Android devices—whether in-store, online, or on-the-go.

*Customer management tools to help store customer information and set up recurring billing with integrated software solutions.

*E-commerce integration capabilities that easily connect with shopping carts and sync with QuickBooks for streamlined accounting.

*Loyalty & gift programs- Create custom rewards programs and branded gift cards to encourage repeat business.

*Access dedicated customer service anytime to resolve issues quickly and keep your business running smoothly.

What's the cost?
